

One.TelcoBill

The Power of  one.

Product Overview

Simplify your billing process with TELIN's white label billing platform. At no up-front cost to you. Our intuitive platform empowers you to take full control of your billing while delivering a seamless experience to your customers.

- **Brand Your Invoices:** Create fully branded invoices featuring your logo, colors, and company details for a professional, consistent customer experience.
- **Flexible Pricing:** Set your own margins with customizable SKUs tailored to your business needs.
- **Client Sub-Accounts:** Give your customers the ability to securely access invoices, update payment information, and manage their billing profiles anytime.

Without having to worry about:

- Telecom tax complexity
- Federal and FCC telecom compliance
- State, county, and local taxation requirements

Tax Rating Engine

The telecom taxation arena has grown increasingly complex, making it difficult for most businesses to stay on top of its many nuances and requirements. TELIN's automated tax rating engine drastically simplifies the process, while saving you money on those pricey accountants.

Navigating the complexities of telecom taxation is a thing of the past with TELIN's automated tax rating engine. Our automated system supports compliance across:

- Federal and FCC Telecom Regulations
- State Taxation Compliance
- County & Local Taxation Requirements

It also ensures proper calculation and management of commonly overlooked fees, such as:

- Federal Universal Service Fund (FUSF)
- E911 fees
- Telecommunications Relay Service (TRS) Fund Fees

Say goodbye to manual tax management and costly compliance errors . One.TelcoBill keeps you protected, compliant, and running efficiently.
