

One.AppStore

The Power of one.

TELIN AppStore for UCaaS & VoIP Partners – Discover, Deploy & Scale Smarter – All Inside TELIN one.console

What is the TELIN AppStore?

The TELIN AppStore is your new destination inside the TELIN one.console platform, a curated marketplace where you can explore and access the latest third-party applications tailored for unified communications (UC), VoIP, and telecom ecosystem.

Designed specifically for MSPs, VARs, whether you're expanding your service portfolio, customizing solutions for clients, or simply exploring new tools, the AppStore empowers you to do more directly within the TELIN ecosystem. all from one place.

Why Choose the TELIN AppStore?

○ All-in-one Access

Quote, demo, and deploy new apps directly from TELIN one.console, alongside your SIP trunks, PBX hosting, hardware, and billing.

○ Curated, Secure Solutions

Only applications that meet TELIN's platform compatibility and security standards are approved, ensuring quality and trust.

○ Effortless Vendor Engagement

Contact developers directly for app demos, solution design, and pricing, no middleman, no delay, while TELIN manages Tier 1 support and technical coordination.

- **Fair, Transparent Pricing**

All vendor pricing follows a Minimum Advertised Price (MAP) policy, so you're always competitive.

- **Simplified Billing**

All charges appear on your TELIN invoice. TELIN also handles taxation and remittance.

- **Enterprise-Grade Reliability**

AppStore vendors are required to maintain 99.9% uptime. In the rare event of outages, TELIN ensures SLA enforcement and credit eligibility.

- **Channel Protection**

Our agreements prevent vendors from bypassing TELIN and soliciting end users directly, preserving your advantage.
